Foreword:

It becomes clear that the occupying state has unlawfully encroached all the red lines and has disregarded the basic war ethics, in light of what happened last October, as it was the month that witnessed the highest number of Israeli colonial attacks and violations which resulted in a huge number of martyrs. It is also considered the most dangerous month in terms of the forced displacement plans that the occupying state is trying to implement on the Palestinian Bedouin communities.

The Israeli occupying state takes advantage of the global preoccupation with the war of genocide that it is waging against our Palestinian people in Gaza to implement its bloody plans in the West Bank by displacing people, executing unarmed civilians, and imposing the apartheid system and blockade in one of the forms of collective punishment which is considered a war crime. However, the colonial militias are now hiding behind the laws of war and emergency that they imposed, in order to avoid being held accountable for committing these massacres.

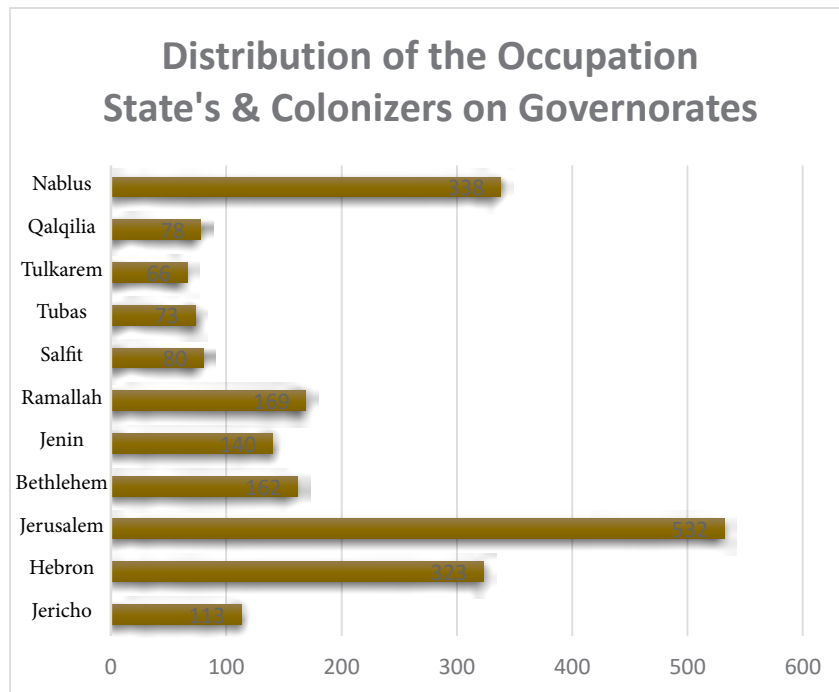

The Palestinian people have been exposed, and are still being exposed, to a serious, prolonged attacks that relentlessly targets their existence, land, and property. These attacks are carried out either by the occupation forces or colonialist militias, who were granted the power and authority to perpetrate their crimes in the West Bank and Jerusalem.

Mu'ayyad Shaa'ban

Head of the Colonization & Wall Resistance Commission (CWRC)

First: Violations of the Israeli Occupation State & Colonizers in the Occupied Palestinian Territories during October 2023

During the reporting period, October 2023, the Colonization & Wall Resistance Commission (CWRC) monitored 2074 attacks. Meanwhile, there were 20,000 injuries in addition to unknown numbers of bodies stuck beneath the rubble, and it seems that it is impossible to reach them due to the continuous Israeli airstrikes.

These attacks varied between the occupation army's protection of the colonists in their storming of Palestinian cities and communities, breaking into Palestinian villages, confiscating citizens' property, drawing racist slogans on the walls, and bulldozing lands, as what happened in the villages of Qaryut, Qusra, Jeet, Madma, Azzun, Yasuf, Kafr al-Dik, Imatin, Al Lebban Al Gharbi, al Tuana, Turmusa'ya and dir Nitham.

Furthermore, 163 vehicles were badly attacked, either by damaging or vandalism. Including the affected vehicles there were 93 broken and damaged vehicles, 17 were burned and 20 vehicles were punctured in addition to the racist graffiti that were drawn on these vehicles.

The most prominent of these colonial attacks was storming the holy places; among which is the squares of Al-Aqsa Mosque in the occupied city of Jerusalem. Colonial Terrorism & Forced Displacement:

This part of the report, documents the forced displacement cases caused by the measures of coercive environment that the occupying state has imposed, through its direct measures and through the terrorism of the colonialist militias, on Palestinian citizens in these areas.

when the flagrant aggression against our people in Gaza Strip was launched on the 7th of October, The Colonization & Wall Resistance Commission (CWRC) monitored the attacks and threats of armed colonizers, who took advantage of the fact that local and international media are focused squarely on Gaza and the global preoccupation with the war of genocide that their state is waging against its people, and most importantly, they exploit the emergency and war laws imposed by the occupying state, which protect criminals from accountability and punishment. During the reporting period, the Israeli measures caused the displacement of 9 Palestinian Bedouin communities consisting of 100 families, including 810 individuals, from their residential places.

Cases of Forced Displacement:

First: displacing the residents of Wadi Al-Siq Bedouin community / east of Ramallah / Ramallah Governorate.

Shortly after the Israeli occupation launched its war against the Palestinian people in Gaza on the 7th of October, the community, as well as the staff of the (CWRC), who stayed in the place for more than 45 days, received a series of colonizers' threats. In this community, 30 families, of 180 individuals, including 40 minors, were residing. On the 10th of October, those families have been forced to flee their homes in the wake of colonizers' threats.

- The residents of the community were living within an area of approximately one square km.

- In the community, there is a school built by residents including 120 students.
- Residents have lived on the community since the 1970s, and depend on raising sheep for their livelihood.
- Since 1996, residents have received continuous demolition notices for facilities, tents, and barracks, under the pretext of their presence in a military zone, despite proof that it is located outside the area designated for Israeli military training.

The most prominent attacks the community has been subjected to in the past period:

- On August 13, 2023: colonizers raided Al-Tahaddi School in Wadi Al-Siq Bedouin community, east of Ramallah, vandalized many of its contents and destroyed its windows, contents, and property.
- On September 12, 2023: Armed colonizers attacked the solidarity tent that was established to support the people of Wadi al Siq and to meet their needs. The colonizers intimidated, threatened, and brutally inspected those who were there.
- On September 20, 2023: a group of armed colonizers attacked a European diplomatic delegation during its tour in Wadi al-Siq Bedouin community. That is, Diplomats from ten European countries as well as the Palestinian citizens living in the community participated in this tour but they were brutally attacked by armed colonizers.
- In January 2023: colonizers erected a new agricultural outpost near “Wadi Al-Siq” community, the thing which forced 3 families to flee their homes in the wake of colonizers threats.

Displacing Khirbet Zanota, Al-Thahriya/Hebron Governorate:

- Immediately after a series of attacks and violent threats by the colonizers to kill the residents in case if they do not flee, 36 Palestinian families including 400 individuals, half of them children, were displaced from Khirbet Zanota in the southern West Bank. On October 28, 2023, the residents dismantled about 50 tents

and barracks, and evacuated the area with their livestock, which were about 4,700 sheep.

- The area of Khirbet Zanota, south of Hebron Governorate, is about 12000 dunums.
- All of “Zanota” area is classified as land “C”. It is surrounded by the colonial bypass road from its western side, and surrounded by the colonial industrial zone on the eastern side, and by the Wall of Annexation & Expansion from the southern side, meanwhile, the colonies of “Meitar, Tema, and Shamaa surround it from its northern side.
- The displacement of this community gives the Israeli occupation full control over more than 20 thousand dunums of the lands surrounding it.
- There are 43 male and female students, including 10 kindergarten children, in the school of Zanota community. The school, which was previously demolished by the Israeli occupation force, was rebuilt with zinc panels and bricks, and includes 6 rooms, facilities, and a health unit.
- In 2016, the Israeli court issued a precautionary principle protecting the community’s facilities from demolition,
- A set of demolition notices, which were not implemented, were issued against the municipal council building and the health clinic in the community.

The most prominent attacks the community has been exposed to in the past period:

- On October 12, the Israeli occupation force stormed al Tahaddi school No. 7, in the community, broke down its gate and assaulted a woman and her daughter. Following that, the colonizers attacked the citizens, the thing which resulted in 4 citizens sustaining bruises.

- On August 2, 2023, a colonizer burned 20 beehives belonging to the citizen Youssef Al-Sharha, owner of the “Sealed Nectar” apiaries.

The Forced Displacement of Ein Al-Rashash\ Thahr Al-Jabal\ East of Ramallah

Fifteen families, totalling 95 people, including 21 minors, used to reside in the area. On October 9, 2023, a group of colonisers blocked the road leading to the community’s residence. It is important to point out that the Israeli occupation army has blocked the road multiple times and the community

managed to open it again. The colonisers also blocked the water tank from reaching the area forcing the community to relocate 1500 sheep to the village of Duma. By October 13, 2023, all women and children had relocated to the village of Duma, and on October 16, 2023, all the men joined them in the area next to the Duman village.

The Forced Displacement of Khirbat Jib'it\ North of Ramallah

Eight families, totalling 25 people, including 10 minors, resided in the area. On October 13, 2023, the community left the area due to colonisers’ threats. They left most of their possessions behind, fearing to

retrieve them because of the ongoing threats and because the colonisers blocked the road leading to the area.

The most prominent violations against the community during the recent period are as follows.

- On September 9, 2023, eight colonisers, riding a Jeeb and a small tractor, broke into the seasonal cattle ranch owned by Fadel Abu Alia (53 years old) in Khirbat Jib'it, vandalizing some of his possessions. They also broke the covers of the tents, the toilet, a sink, and two solar panels.
- On October 8, 2023, an armed colonizer grazed his cattle on the property of the citizens of the village of Jib'it.

b- The Most Prominent Decisions of the Israeli Occupation’s Cabinet

This part of the report documents the most prominent Israeli occupation government decisions during regularly held meetings of the occupation authority. It specifically monitors all decisions made by the occupation’s cabinet regarding the lands of the West Bank and Jerusalem in terms of the facilities enacted in favour of colonies or any decisions that reinforce the apartheid system imposed on Palestinians. The objective is to impose a Jewish colonial dominance that isolates Palestinians and limits their rights.

During the period covered by the report, coinciding with the declaration of war against our people in the Gaza Strip, it can be noted from the approved and deposited laws by the Knesset, that they are designed to enforce a security grip under the pretext of war laws that the occupation’s Knesset imposed. Some of these laws, at their core, target Palestinian detainees, as these decisions aim to tighten the noose on them and impose harsh conditions on the detainees, whether those detained prior to the war or those who were arrested after the state of emergency. An example of these laws is the order to extend the periods of administrative detention ("Iron Swords") (Temporary Instructions) (Judea and Samaria) (No. 2148), 5784- 2023, which addresses the extension of detention periods, simplifies arrest procedures, and

the execution of arrests that do not adhere to international norms. We also note the legislative authorities' use of the state of emergency to grant new powers in the violation of the privacy of Palestinian citizens by authorising security agencies to engage in espionage and infiltration operations under the pretext of security and wartime conditions. Additionally, some laws aimed at tightening control over the media and labelling them as detrimental to the security situation in the occupying state, based on emergency regulations from 1945, were discussed and approved, such as declaring JMEDIA as a terrorist organization.

Date	Law No.	Details
30 October 2023	1011	As specified in the Civil Defence Law 1951-5771, on the twenty-second day (October 7, 2023), there is an immediate need for additional detention facilities. It is not feasible to adhere to the provisions regarding the living space or provisions regarding entitlement to overnight stays. On the recommendation of the Commissioner of Prisons, the Israeli occupation government's Cabinet has decided to extend the validity of the state of emergency in prisons for one month, until November 30, 2023.
27 October 2023	1005	According to Article 19 (b) of the Government Work Regulations and under Article 23(b) of the Antiquities Law of 1989-559, approval is granted for the Antiquities Authority budget for the year 2023 of 399.8 million shekels for current expenses and 76 million shekels for the development budget.
26 October 2023	999	Regarding the Emergency Regulations (Deadlines for Dealing with Unlawful Combatants during War or Military Operations) (Amendment), 2023, the occupation government's cabinet has decided, in accordance with the powers stipulated in Article 39 of the Basic Law, to amend the time limits for dealing with unlawful combatants during war or military operations.

29 October 2023	1007	Approval of an amendment to the counter-terrorism law, sponsored by the Israeli government, will allow the classification of individuals, not just organizations, as terrorist activists. It ensures that they are subject to the same penalties applied to terrorist organizations in the past. The amendment will be presented to the Knesset for approval.
24 October 2023	989	The decision allows for the extension of the detention period for suspected detainees, in addition to the possibility of preventing those accused of what is known as "security crimes" from meeting with their lawyers. The new instructions permit the prevention of the detainee from meeting their lawyer for a period of up to 30 days without judicial approval.
20 October 2023	981	This decision aims to restrict the work of TV channels and media outlets that the Israeli occupation state deems does not align with its narrative during times of war. Thus, it claims that its decision is made to "restrict assistance to the enemy through the means of media". According to the draft, "assisting the enemy through a media outlet" will be described as the dissemination of news that could "undermine the morale of the Israeli soldiers and residents of Israel when facing the enemy", "be used as a basis for enemy propaganda, including the dissemination of media information for the enemy" or for the purpose of "assisting the enemy in its war against Israel and its residents or against the Jews".

The statements made by the Israeli occupation army's leaders who nowadays display their racist opinions fully and without fear show a case

of superiority in their racist rhetoric. In this section of the report, we quickly review the most prominent statements.

Media affiliated with colonizers' militia launched an attack on the head of the Colonization and Wall Resistance Commission, Muayyad Sha'ban, while the Israeli occupation forces incited to eliminate him clearly, the "Jewish Voice" newspaper affiliated with the colonizers published a number of articles demanding his assassination, most prominent of these articles were published on 22 October 2023 where it said, "Our dear soldiers beware, the Nazi Muayyad Sha'ban is calling in this video, in a raspy voice, saying that the martyrs are 'superior to all of us', this means that he really desires to be a martyr, we should make sure to make his dream come true". A new group affiliated with the colonizers' militia appeared in the realm of incitement. This group identifies itself as the "Nazi Hunters". This group operates on several active channels on Telegram. All of these channels have the same icon, which shows the person targeted by the incitement with a target on their head in a clear indication of their murderous intent. This group also published a number of provocative materials against Minister Sha'ban and against a number of Palestinian activists. The most prominent of these instigations was made on the 22nd of October 2023, which stated, "Many of you asked us to share this video here. This is the full video showing the Nazi, Muayyad Sha'ban, showing his solidarity with the Nazis of the Nur Shams Refugee Camp in Tulkar, who killed the soldier Maxim Razinkov".

On 30 October 2023: Yossi Dagan, the head of the colonisers' so-called "Shomron Regional Council" located in the north of the West Bank, shared a message on his Facebook page, where he said, "With determination and an iron fist, we will prevail for the first time in Israel: (...) for this purpose, we have purchased hundreds of standard "Ronnie" rifles through foreign donations. The Ronnie turns GLOCK pistols into "rifle-like" weapons- with line and target, enhancing accuracy, increased

shooting range, and terrain combat capability. The Friends of Samaria raised the funding from New York, Miami, Toronto, and Paris. In recent years we have invested in friendly parliaments and strengthened friendships with Jewish communities worldwide. Now they are opening their hearts and pockets and pledged millions of dollars to strengthen the security in the colonies of Samaria. At the same time, the Samaria Regional Council is completing the distribution of 300 assault rifles purchased (...). With determination and an iron fist, we will defeat the barbaric Nazis”.

On 25 October 2023, the Israeli politician and former Deputy Speaker of the Knesset, Moshe Feiglin, announced in an interview on Israeli Channel 14 that Israel will soon initiate a process to kill all remaining Palestinians living in Gaza using gas, with the goal of "complete and total" extermination of Palestinian civilians living near the Israeli occupation state.

Gaza needs to turn the bodies of Hamas members and their associates into smelly corpses without achieving their goals. Do not take risks. Everything that moves within the boundaries of your territory, shoot at it. The main goal is to return back safely”.

On 17 October 2023, the so-called “Minister of National Security” in the Israeli occupation government, Itamar Bin Gvir, posted via his official page: “The only thing that should be brought into Gaza is hundreds of tons of air force explosives, not a single gram of humanitarian aid.” Commenting on the incident of the martyrdom of two young men in Silwan in the city of Jerusalem at the hands of the Israeli occupation police, Ben Gvir posted on his page on the X platform: “We

congratulate the police fighters who eliminated two residents of Silwan who launched fireworks and injured a policeman. This is a clear message to terrorists: Do not try us! Any attempt to harm and cause harm at the same time as fighting is taking place in the South will be met with a firm response and zero tolerance. Well done to the Warriors.”
